

08/2023

Showcasing educational tourism for the promotion of natural and cultural heritage

Expected results

- Increase of tourist arrivals in the areas of intervention by at least 20%.
- Extension of the tourist period by at least 30 days.
- Creation of new jobs because of increase of tourists, the development and maintenance of project deliverables (platform, app, educational activities).
- Showcasing the common history shared by the two countries, and strengthening of their connection through territorial cooperation and exchange of practices
